Music and Lyrics by

VERSE 1

VERSE 1

The trouble is that four out of every five
Work thir jobs everyday merely to survive
Embedded in a dream that cinderella is alive
And waitin' on illusions that may never arrive

Voices in my mind
Are masked inside the truth

CHORUS

But one day you will find
That you don't lean everything in school
And don't take every teacher's word
Teachers for fools, teachers for fools

VERSE 2

They took away my home
They stripped away my pride
And for several years now
Hope has been denied
I'm maxed out on my master card
And katrinas' at my side
Everywhere I turn my american dream has died
Pre- chorus
The pages keep on turning
I'm maxed out by your rules

REPEAT CHORUS

(repeat chorus)

BRIDGE

Well I've got my masters
But my scholarship to life fell through
The storm that just passed us
Has left me here with just my shoes

INSTRUMENTAL

Pre- chorus

The world keeps on burning

Poisoned by your fuels

REPEAT CHORUS

(repeat chorus)

VERSE 3

Hey mister rapper can you find the perfect rhyme

I'm growing dizzy spinning circles all the time

You need to tell that teachers pet the national debts' a crime

Hey blue collar, your last dollars' barely worth a dime

PRE-CHORUS

Voices keep on calling

I hunger for the truth

FINAL CHORUS

(Final Chorus)

VAMP OUT

(Vamp out to fade)
